
Prof. Xu Yan

Jilin University, China

Dr. Xu Yan is currently a Professor at the College of Electronic Science and Engineering, Jilin University. He received his Ph.D. in Analytical Chemistry from Jilin University (China) in 2017. He joined the College of Electronic Science and Engineering, Jilin University, in June 2017.

His research interests in the research and development of high-performance enzyme-based sensors and detection devices for pesticides, and the applications of sensing technologies in environmental monitoring and smart agriculture. He has authored more than 80 papers in leading international journals, including *Advanced Materials*, *ACS Nano*, *Biosensors and Bioelectronics*. His publications have received more than 5,000 SCI citations.
